(Press) — Conservative amendment and Progressive sub-amendment to the budget followed each other in rapid succession in the house today. Sir Henry Drayton, minister of finance in the Conservative administration, opened with an amendment that "conditions in Canada urgently demand reduction of taxation especially of the sales tax and other taxes on the consumer, in order that the Government may be able to meet the needs of the country."

the present government. Robert Forke, Progressive leader, followed in the evening with a sub-amendment, declaring that the budget "constitutes a failure to carry into effect substantial economies in public expenditure, and the fiscal policy of the Liberal party as from time to time enunciated," and calling for a revision of the tariff based on the

## STONY PLAIN RESIDENT SHOOTING GIANT EAGLE

(By Bulletin Correspondent)  
STONY PLAIN, Mar. 26.—John Adams on Sunday last shot a large eagle which measured 8 ft. from tip to tip.

The eagle and Crafts club met last week at the home of Mrs. James Malloch. Mrs. William Robertson gave a very interesting and instructive demonstration on punch work embroidery. During the evening musical numbers were rendered by Miss McCallum, Miss Cowan, Mrs. Fehenden and Mrs. James Smith, which were greatly enjoyed by all present. Dinner refreshments were served by Mrs. Malloch and Miss Anderson.

A petition is being circulated among the residents of town for the construction of a road from Stubby Church creek and west to Cottage Lake.

At the Stony Plain Court on Saturday a farmer of Carleton district was fined \$100 and costs in a charge of cruelty to animals.

Mrs. J. R. Lavo, teacher at Rosenthal school, headed a party of his sister pupils in a trip to Edmonton on Friday, which included a visit to the Legislative Assembly.

Mr. Charles Schuchman brought up a claim of purchased Porcheron mare from Calgary this week.

Mrs. W. H. Clarke of Victoria, is visiting this week with her daughter, Mrs. J. B. Lory.

Miss L. Brett has resumed her duties as teacher at Corner school after an absence of two months through illness.

Mr. Ed. Grembak was brought home Saturday from an Edmonton hospital, where he had been treated for pneumonia.

The last curling contest for the past Grand Challenge was played Saturday night at the home of Mr. Robbins rink beat McCallum's 2 to 0.

Mr. H. Denn will work the Joe Giesbrecht farm this season, and moved on to the place last week.

Mr. A. F. Schutte who has been farming north of town for several years, had a clearance sale of stock and effects Monday and has moved to Wabamun, where he will conduct fishing operations this season.

Services will be conducted at St. Joseph's Roman Catholic Church on Sunday next, March 29th, by Rev. Father Kitchin of Edmonton.

Mrs. J. W. Edman is under the doctors care this week, suffering from an attack of pleurisy and pneumonia.

## MIRROR HAS SIGNS OF SPRING; DUCKS BACK

MIRROR, Alta. Mar. 25.—The first definite signs of spring have made their appearance during the past two days, when a few of the winter migrants have again made their appearance in this district.

The first of these, the Canada goose, has been noticed and a few wild ducks have been seen. During the past three days the weather has softened to a great extent and the snow has been melting fast, so that on the high spots the lake around it is beginning to show through.

The Farmers' Cooperative association of this district, working in conjunction with the Grain Growers' association, had a very successful winter at this point with regard to buying stock and shipping to the several districts.

Mr. A. H. Hadow, Clive, Portneuf, Texas and Irvine, with a total business of about \$10,000.

Due to the resignation of the secretary-treasurer of the Mirror association, a little over a month ago, it was necessary to throw open the office for applications, with the result that the successful applicant to Mr. J. Russell, of Mirror, who has also for the past two years, been acting in the capacity of village secretary.

As Mr. Russell is a trained lawyer of the firm of Atkins and Russell, the village and school boards can consider themselves fortunate in obtaining the services of one who will be able to get the members straight on points of law that arise from time to time.

Very little snow has been observed over the C. N. R. at this point for the past two months and from time to time one or more crews would be cut off the line, thus interfering with the other employees in security.

With the opening up of spring there will be a little more business, when the new crews are put back upon the road and re-getting of track.

## ARDROSSAN

## "NATIONAL" BOOKLET FEATURES WESTERN SUMMER RESORTS

Outside of the prairie provinces themselves, the idea has prevailed for years that within the borders of Manitoba, Saskatchewan and Alberta, there was little to be found in the way of watering places where visitors to this country could find it worth while to stop off and enjoy themselves for a day. And until the present year little has been done to correct the growth of such an erroneous idea. This year, however, the Canadian National Railway has issued a booklet, "Summer Resorts," which will do much toward bringing the beauties of these provinces to the notice of people both at home and abroad.

With the growth of the tourist traffic into Canada, it is inevitable that new places of enjoyment should be sought, and the new publication should have a great effect in attracting to these provinces many tourists who would otherwise have been attracted to other parts of the country.

The booklet is a small, attractive, and well-illustrated, which will do much toward bringing the beauties of these provinces to the notice of people both at home and abroad.

OTTAWA, March 24.—Proof that there has been trading in American immigrants to Canada and the United States, chiefly in relatives of Armenians already resident in the United States, is believed to have been adduced in yesterday's proceedings in the assize court here in the trial of George H. Alexander, an Armenian, charged with conspiring to obtain a passport under false pretences. Letters produced by Alexander, who is acting as his own counsel, implicated indirectly

It is generally understood that the case involves the traffic in Armenian immigrants to Canada and the United States.

Officials of the Immigration Department say that yesterday's revelations seemed to prove what the department has been trying to lay hands on.

"Many people considered that

our methods were too restrictive," said one official. "But we have had to be firm for years. A constant battle for the past 10 years. We ought to trade in the admission to Canada of foreigners who were banned by the ordinary provisions of the law." The proceedings were interrupted. The proceedings was a letter introduced by Alexander from Robert Forbes, an Ottawa school teacher, who said that he was a friend of the letter. But said afterwards to newspapermen that it was meant as a joke and should not be taken seriously. He said that Alexander had permitted to be being obtained for the entry of Armenians into Canada on the strength of his letter. He then adds: "This is eighteen or twenty and should be worth \$400

Just before the end of yesterday's proceedings, Alexander declared he was going to produce evidence to show a great system in "bootlegging to humanity" through channels in

**BR. PREFERENCE**

TORONTO, March 26—Resolutions advocating that the specially low duties granted Great Britain be discontinued, and that the research laboratory of the association, the

only one of its kind in Canada, be continued, were adopted at the annual meeting yesterday of the Canadian Woollen and Knit Goods Manufacturers' association, of which C. G. Cockshutt, of Brantford, was elected president.

"Sheep should be kept on every farm in Canada as part of good farm practice," he said. "They fit into mixed farming as do no other farm animals."

He said that except for areas in the west, sheep in Canada should be

**CLAIM DISCOVERY  
INCREASES CURATIVE  
POWER OF RADIUM**

LONDON, March 26—The experts of Middlesex hospital in London, the centre of British radium research, have announced an important discovery enabling the curative value of any given quantity of radium to be multiplied thousands of times.

bottling radium gas, known as radon, in tiny glass tubes. Radium emits three kinds of rays, known as alpha, beta and gamma, but hitherto only the gamma rays have been harnessed. The present success comes from capturing the rays which expand on the capturing, by condensing and confining in glass tubes a little thicker than a human hair to which is given the name "seeds." These seeds, they are prepared to distribute to other hospitals for curative purposes and suggest they may prove useful in treating cancer, although they deprecate the idea that the rays are only a revolutionary cancer cure.

The alpha rays are very weak and are regarded as negligible.

**U. S. PUBLIC POWER PROJECT**  
WASHINGTON, Mar. 26—What is taken in official circles as a clear indication of the intention of inaugurating public ownership and operation of power in this country, similar to the Ontario hydroelectric system, was the announcement today, that Senator Howell

Republican, Nebraska, plans to visit Canada this summer to inspect the hydro-electric systems in the dominion with a view of having a similar system organized in the United States with Muscle Shoals as one of the units.
